Black Powder Exhaust Tips

Nothing completes the look and sound of your truck like a cool exhaust system. But when it ends in a wimpy exhaust tip, what does that really say about you and your truck? Well, don't fret, because the masterminds at aFe Power have got you covered with their new 7-inch Black Powder Coated Exhaust Tips. These new tips fit any 4-inch exhaust system and come with a Laser Cut aFe Power Badge to let everyone know what you're rockin'. In the market to go black? The company also offers its tips in a black finish. Contact aFe Power on its horsepower hotline at (951) 493-7155 or visit www.aFepower.com.

COMP-One Water/Methanol Injection System

Although avoiding snow is typically a good idea when you're looking for performance, the new Snow Performance COMP-One Water/Methanol Injection System combines sophisticated water/methanol injection delivery with an advanced programmer to effectively reduce combustion temperatures by 250-300° F. According to Snow Performance, this system allows you to use the programmer's hot tunes with the water/methanol's 70-plus horsepower to safely add up to 250-plus horsepower and 500-plus lbs/ft of torque without damaging DFP filters or hindering fuel economy. With all of this newfound power and torque, you'll need to keep an eye on how everything is running. Thanks to the new dash-mounted monitor/tuner, which features a large screen with customizable graphic options, it shouldn't be a problem. For more information, contact Snow Performance at (760) 674-5876 or visit www.SnowPerformance.net.

Eagle One Superior Nanowax

Nanu, Nanu may have been a common phrase you grew up hearing on TV, thanks to Mork and Mindy, but this product is no ordinary wax. It's Nanowax. Trucks past and present can benefit from this cutting-edge product. The patented carnauba-based formula in Eagle One Superior Nanowax produces a top-notch shine, helps with water-beading and provides long-lasting protection, according to Eagle One. It also fills in fine scratches and swirl marks. The best part is that you don't have to be a rocket scientist or a professional to use it. Just spray it on and wipe to a beautiful shine. No hand buffing, haze, white residue or discoloration of your trim. Grab a bottle at your local auto parts retailer, or reach out to Eagle One at (800) 345-9061 or visit www.eagleone.com.

DON'T BE DENIED!! TORQUE RULES!

If you own a new 2011 Duramax LML, you need this intake. In recent testing, this Stage 2 intake produced 36hp and 63lbs. x ft. of torque. Nothing puts a smile on your face like being thrown in the back of your seat and aFe intakes are designed to provide that thrill of the drive.

A 1-piece Heat Shield:

The powder coated heat shield keeps intake air temps down for increased performance & air velocity.

B Tuned Intake Tube:

Intake tube with built-in MAF sensor pad has been dyno tuned for maximum air velocity.

C 360° Air Filter:

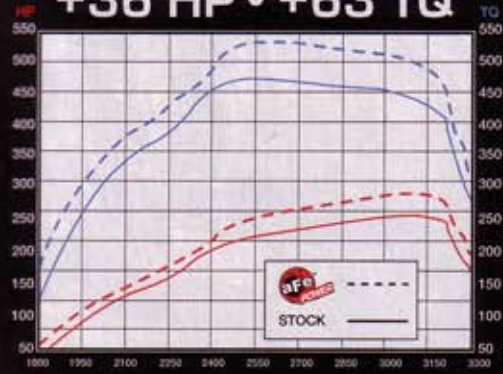

Huge 8" inverted conical air filter for maximum air flow and filtration.

D Auxilliary Air Scoop:

An auxilliary air scoop and 2 rows of louvers bring in additional air volume for maximum performance.

+36 HP • +63 TQ

35+ Hot New Diesel Parts For 2011

**Diesel Innovations
& Products Spotlighted
at Annual SEMA Show**

COMPILED BY JOHN STEWART

Every year the aftermarket manufacturers reveal their new parts at the Specialty Equipment Market Association (SEMA) show, a gigantic industry-only trade show held the first week of November in Las Vegas. Manufacturers of almost every kind of performance and appearance part display their newest upgrades. Among these products are many that pertain to diesel-powered, HD pickups. They range from the ridiculous to the sublime—some completely innovative; some that tackle the same old jobs in smarter, more efficient ways; but all incredibly interesting to the enthusiast truck owner. Here we have a selection of some of the parts that caught our eye as we strolled down the aisles. **DW**

DURAMAX DOWN PIPE

What It Is:

Mandrel bent, black ceramic-coated down pipe for the 2001-04 GM Duramax-powered vehicle, part number GM8425.

Why You Want It: Power gains and EGT reduction.

Where to Get It:

MBRP Inc.
315 Old Ferguson Road
Huntsville, P1H 2J2, Canada
(888) 636-7223
www.mbrpautomotive.com

STAGE 2 INTAKE FOR 2011 FORD 6.7L SUPER DUTY

What It Is:

Stage 2 cold air intake from aFe, part number 54-11872.

Why You Want It:

According to the manufacturer, it outflows the factory air intake system by 67 percent and produces 26 hp and 80 lb.-ft. more torque than the factory intake.

Where to Get It:

aFe (advanced FLOW Engineering Inc.)
252 Granite Street
Corona, CA 92879
(951) 493-7100
www.afepower.com

SNOW COMP-DIESEL WATER/METH INJECTION

What It Is:

New water-methanol injection system designed for high hp (650-1,100 hp) and high boost diesels, part number 48010.

Why You Want It: According to the manufacturer, it will cool EGT up to 300 F and increase power from 75-150 hp.

Where to Get It:

Snow Performance
1017 East Hwy 24
Woodland Park, CO 80863, USA
(719) 633-3811
www.snowperformance.net

ATS DIESEL PERFORMANCE ATOMIZER FUEL RAIL CONTROLLER

What It Is:

Atomizer module gives on-dash control of fuel rail pressure in late-model diesel vehicles.

Why You Want It:

Provides increased power and fuel economy with built-in safety features.

Where to Get It:

ATS Diesel Performance
5293 Ward Road, Unit 11
Arvada, CO 80002
(866) 408-7916
www.ATSdiesel.com

FORGED ALUMINUM TITAN DUALY WHEEL

What It Is:

Available in multiple designs, the American Force 26x8.25 Titan wheel, part number AFM26.

Why You Want It:

The industry's first 26-inch wheel for dualy trucks. Offers custom forged aluminum construction and a mirror finish.

Where to Get It:

American Force Wheels
12027 SW 114 Place
Miami, FL 33176
(800) 620-6259
www.americanforcewheels.com

8-LUG TO BIG-RIG ADAPTORS

What It Is:

American Force Big-Rig adaptors

Why You Want It:

Converts 8- or 10-lug 3/4 and 1-ton trucks to the Big-Rig Semi 10-lug bolt pattern (for Chevy, GMC, Dodge and Ford).

Where to Get It:

American Force Wheels
12027 SW 114 Place
Miami, FL 33176
(800) 620-6259
www.americanforcewheels.com

INTERCOOLER FOR FORD 6.4L POWER STROKE

What It Is:

aFe Bladerunner intercooler, part number 46-20071.

Why You Want It:

Use aFe MDV technology to outflow the factory intercooler by 74 percent. Also reduces intercooler temperatures by 200 degrees and reduces EGT by 100 degrees.

Where to Get It:

aFe (advanced FLOW Engineering Inc.)
252 Granite Street
Corona, CA 92879
(951) 493-7100
www.afepower.com

BD KILLER B TURBO

What It Is:

Borg Warner/BD engineered matching turbo for 2003-2007 Dodge 5.9L CR-Diesels, part number 1045160.

Why You Want It:

Ideal replacement turbo for engines developing up to 200 hp increase from stock.

Where to Get It:

BD Diesel Performance
A10 33733 King Road
Abbotsford BC, V2S-7M9, CANADA
(800) 887-5030
www.dieselperformance.com

BANKS POWER MONSTER EXHAUST FOR LML

What It Is:

Stainless 4-inch DPF-back exhaust fits 2011 Chevy Duramax with 6.6 LML engine.

Why You Want It:

Banks Cool Cuff design cools temps as much or more than stock and dramatically cuts backpressure, nearly doubling exhaust flow. System includes polished stainless tailpipe tip and lifetime warranty.

Where to Get It:

Banks Power
546 Duggan Avenue
Azusa, CA 91702
(626) 969-9600
www.bankspower.com

PERFORMANCE TURBOCHARGER LINE

What It Is:

The BorgWarner-AirWerks S400SX4 turbo.

Why You Want It:

Line has been expanded to include compressor wheel sizes 76, 80, 82 and 88mm. These additions give pro racers and street tuners off-the-shelf availability of turbos that feature extended tip technology for aero high efficiency and product performance.

Where to Get It:

BorgWarner Turbo Systems
1849 Brevard Road
Arden, NC 28704
(800) 787-6464
www.airwerksboosted.com

CRAZY LARRY GT TUNER

What It Is:

The Crazy Larry GT, part number 70302.

Why You Want It:

Brings Bully Dog power back to the racetrack with huge power increases for late-model diesel applications.

Where to Get It:

Bully Dog Technologies
2839 Highway 39
American Falls, ID 83211
(208) 226-2500
www.bullydog.com
