Dodge Ram Throttle Spacer

advanced FLOW engineering (aFe), Corona, Calif., presents its new Silver Bullet Throttle Spacer for 2003-'08 Dodge Ram 5.7-liter Hemi applications. The spacers feature a serrated/helix design that thoroughly mixes the air/fuel charge for a complete burn for increased horsepower, torque and improved throttle response. It is constructed of machined T-6061 billet aluminum for increased strength, durability and an aggressive look, and is 50-state legal. Recent testing showed increases of 5 hp and 7 foot-pounds of torque.

Use INFO #485

Chrome Spin-On Oil Filter

Moroso Performance Products, Guilford, Conn., presents its chrome spin-on oil filter for GM LS engines that take a 1 3/16-inch-thread spin-on filter. Hand-polished and rack-nickled before chrome for a high-luster finish, the filter features a heat-cured, resin-impregnated 20-micron filter element engineered to exceed OEM specifications for filtration efficiency.
