## ENKEI Falcon Performance Wheel

The ENKEI Falcon has a strong, classic five-spoke design and comes in stylish Hyper Silver with a shiny machined lip or in an able-bodied Matte Gunmetal color with a subtle machined lip. The Falcon is perfect for both import and domestic car enthusiasts. Available in 16x7, 17x7, 17x8, 18x7.5, 18x8, 20x8.5, and 20x10, the ENKEI Falcon Performance Wheel is just one of the many new designs in Enkei's 2010 line-up. For more visit [www.enkei.com](http://www.enkei.com) or stop by SEMA Booth 46045

## Mishimoto Silicone Hose Kits

Mishimoto is proud to announce the release of two new silicone hose kits for the 2004-2007 Scion xB and the 2008+ Scion xB. All Mishimoto silicone radiator hose kits are hand made using four layers of high grade silicone and heat-resistant embedded fibers. They are designed to withstand high heat and increased pressure. Every application is engineered for a direct OEM replacement fit. Mishimoto hose kits are offered in several colors, including black, blue and red to fit your style and personalize your engine bay. For more visit [www.mishimoto.com](http://www.mishimoto.com) or call (877) 60-MISHI

## SCAT Sport Compact Connecting Rods

On the street or at the strip, using SCAT products is vital for your engines performance. SCAT offers H-Beam connecting rods in two styles, with the choice of standard weight Pro-Sport series H-beam connecting rods or their new Ultra-lite weight H-Beam connecting rods, which features their "Formula 1" inspired design which reduces rotating mass by up to one third and ultimately, generates higher RPM. SCAT rods come standard with ARP 2000 3/8" cap screws designed to meet and exceed all performance standards. Other key features include high quality 4340 2-piece forgings for superior grain structure, strength and durability, special doweled cap for exact cap-to-rod alignment, extra clearance for stroker applications. For more call (310) 370-5501 or visit [www.scatcrankshafts.com](http://www.scatcrankshafts.com)

## Takeda USA Short Ram Dual Intake

Takeda USA is pleased to announce the release of their new Takeda Retain Short Ram dual intake for the 2009 Nissan 370Z (part number TR-3009P). The Takeda Retain Short Ram air intake replaces the bulky and inefficient factory intake increasing air volume and improving air velocity for increased horsepower, torque and improved throttle response. TR-3009P utilizes specially designed 1-piece polished aluminum intake tubes to guide the air into the motor and provide an aggressive style. Takeda air intakes use the brand new Pro Dry S filter from aFe, which uses a progressive synthetic media, requiring no oil to re-charge for maximum convenience and filtration. The Pro Dry S filter is 99.2% efficient so it prevents all of the dirt and debris from entering the motor. TR-3009P comes with a lifetime warranty and come complete with two polished aluminum tube(s), two Pro Dry S performance air filters, Urethane couplers, clamps and all hardware necessary for a simple installation. This system also comes with an wrinkle black finished air deflector which shields hot air coming from the radiator hose which keeps the air intake charge cooler. In recent testing, part number TR-3009P produced an astonishing 18hp and 20ft. lbs. of torque over the factory vehicle while outflowing the factory intake by 90%. To view a video of the dyno runs or for more information on this or any other Takeda product, visit [www.takedausa.com](http://www.takedausa.com) or call (951) 493-7155

## Auto-Tech Interiors Gauge Mounts

ATI (Auto-Tech Interiors) continues to expand its innovative product line of gauge mounting solutions. Designed to make for the easiest installation possible, ATI produces the highest quality products while providing clean and functional products for the aftermarket. New applications include Nissan 370Z, Subaru WRX/STI, MazdaSpeed3/Mazda 3 and Mitsubishi Evo X. To learn more about ATI products, visit [www.autotechinteriors.com](http://www.autotechinteriors.com) or call (949) 241-5010. Dealer inquiries are welcome.
